

**Pregnancy Aid Clinic, Inc.**

## Cumming Project

### **What is the Cumming Project?**

The Cumming project is a grass-roots effort initiated by a group of passionate parishioners in the northern suburbs of metro Atlanta who have identified the need for a Catholic pregnancy resource in the South Forsyth/Cumming area.

Pregnancy Aid Clinic (PAC) is partnering with the north metro parishioner group to raise funds for a dedicated clinic facility in this area. The initiators of this movement have observed the difference in a Catholic approach to serving pregnant women and families, one which meets people where they are, offering compassionate and non-judgmental care on every step of their journey.

### **Why PAC?**

Pregnancy Aid Clinic is the only Catholic pregnancy resource in the Archdiocese, providing life-saving and life-changing services regardless of financial ability, race, age or religion since 1984. PAC's service offerings are in accordance with Church teachings, and include pregnancy tests, ultrasounds, advocacy, client mentoring, parenting classes, life skills workshops, faith-based education and free baby and maternity supplies. PAC provides families with the tools they need to choose life and live stable, dignified family lives. Current clinic locations are in Roswell and Forest Park as well as a mobile RV unit.

### **The Goal?**

**Our challenge is to raise \$100,000 by March 30**

### **How can I give?**

Pregnancy Aid Clinic is currently accepting donations and pledge offerings toward the goal.
